FORT SMITH PUBLIC LIBRARY

first in the nation to build it ✨

Production notes

- Capture b-roll from the **real prototype** (offline single-file build) so footage matches the demo.
- Music: warm, optimistic, light percussion; resolve on the logo beat.
- Make a **15s teaser** too: frames 1, 3, 7.
- Keep a "concept" disclaimer on internal cuts until launch.
- Alt closers: "Built here first. Built together." / "A national first — proudly from Fort Smith."

VO: "Fort Smith Public Library — the first to bring it home."

SHOT: logo lockup, assistant sparkle, music resolves.

Honest-hype guardrail: until it launches, frame it as "first to **pilot** / first to build it **together**" — true and still exciting. Avoid implying the service is already live.
